

SHARE A SMILE PROGRAM AND GIVE A SMILE PROJECT

We believe in the power of smiles to brighten lives and foster stronger, healthier neighborhoods. Introducing our **Give A Smile Project** through our Share A Smile Referral Program, where you can play an active role in bringing joy to your neighbors in need of dental care and coverage.

How does it work? It's simple!

Share A Smile is an easy way to give back to the community. Star City Dental donates dentistry treatments to neighbors in need whenever you refer a new patient to our practice. If you or someone you know needs dental treatment, you can nominate them on our website. In addition to receiving donated dentistry, recipients will also receive a full year of our dental savings plan coverage. Every effort adds up to helping make a difference in the lives of those right here in our community.

We hope you'll help spread the word about our dedication and quality of dental care! **In addition, by telling anyone and everyone about the experts at Star City Dental, both YOU and the new patient will be rewarded a \$50 credit to use towards your next visit!**

What do you say? Let's add a little sparkle to the community. **Together, we can all work towards growing a brighter neighborhood!**
